

DEVELOPING FLEXIBILITY FOR THE JOB MARKET

Our project started to operate under the coordination of **ITALY**, with the partnership of **POLAND**, with the project number 2021-2-IT02-KA210-SCH-000051344 000031354.

With this project, students will exchange ideas with students from different countries, enabling them to work together and produce creative ideas. The general purpose of our project; to work on alternative job opportunities that Generation Z may encounter and prefer by working on the professions of the future.

The specific goals of our project are;

- 1. To meet the participants with new cultures and to enable cultural exchange by gaining intercultural competence.***
- 2. Developing students' business ideas,***
- 3. To develop students' critical thinking, analytical thinking and creative thinking skills,***
- 4. Developing students' social skills,***
- 5. To increase students' self-confidence,***
- 6. Developing language skills,***
- 7. Collaboratively transfer best practices from European schools to other schools.***
